NATURAL MINERAL WATER

THE THIRST-QUENCHER FROM NOVA SCOTIA

NATURAL THIRST-QUENCHER

Canada Geese, the natural mineral water from Nova Scotia, Canada, is a healthy and refreshing beverage with natural minerals. This gently sparkling water with a balanced and harmonious taste is perfect as a thirst-quencher or as a companion to food.

Canada Geese is available in resealable 0.33 l and 0.75 l glass bottles.

ORIGIN

Nova Scotia is located on the Atlantic Ocean and is Canada's easternmost province. It offers a fascinating and pristine slice of nature whose roots go back to a time more than 1.2 billion years ago, when enormous rock formations were shifted and folded, weathered by wind and water and rearranged again and again. As this process went on, water was sealed in stone deep beneath the Earth's surface, protecting its purity for millions of years.

A mineral water that gives Canada Geese its primal character and outstanding quality.
